## MINIMUM ACADEMIC REQUIREMENTS

1. The student must score a minimum Grade P in each course unit
1. The student must score a minimum Grade P in each course unit
2. The minimum passing SGPA for each semester is 4.0
2. The minimum passing SGPA for each semester is 4.0
3. The student should secure a minimum overall Cumulative Grade point Average (CGPA) of 4.0 at the end of final semester.

### Computation of SGPA and CGPA:

- i. The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the number of credits of all the courses undergone by a student, i.e.  $SGPA(S_i) = (C_i \times P_i) / C_i$ . Where  $S_i$  is the SGPA of  $i$ th semester and  $C_i$  is the total number of credits in that semester.
- ii. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all semesters of a program. i.e.  $CGPA = ((C_i \times P_i) + (C_i \times P_i) \dots \dots \dots n / c_i + c_i \dots \dots \dots n)$  Where  $P_i$  is the SGPA of the semester and  $C_i$  is the total number of credits in that semester.
- iii. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

### Qualifying for Next Semester

1. A student acquiring minimum of 40% in overall of the CA is eligible in individual semester for EoSE.
2. A student who does not pass the examination (CCA+ESE) in any course (s) (or due to some reason as he/she not able to appear in the ESE, other conditions being fulfilled and so is considered as Fail), shall be permitted to appear in such failed course (s) in the subsequent ESE to be held in the following December or May or when the course is offered next as the case may be.
3. A student who fails in one or more papers in a semester shall get three more chances to complete the same; if he/she fails to complete the same within the prescribed time i.e. three additional chances for each paper, the student is ineligible for the program in which he/she is admitted.

### Conversion of CGPA to Percentage

1. To convert CGPA to Percentage the CGPA multiply by ten. Final Percentage = Cumulative CGPA X 10

### Ordinance – 384

There will be no supplementary/due paper/special examination for any course. The candidates can improve performance in the subsequent EoSE and performance in that appearance will overwrite earlier performance. Student will have to prepare on his own for improvement. Improvement in Continuous Assessment will not be permitted

**Note: For remaining instructions candidates are advised to see relevant Rules, Regulations and Ordinances of the University.**
